Date: 07/15/17 22:59:16

Table of Contents

tbIDIS - Opportunistic infections	3
Core fields	3
Additional fields	3

tbIDIS - Opportunistic infections

holds type and date of CDC-C diseases.

Core fields

Note: Fields marked **bold** form the unique identifier for a record of the table.

- [PATIENT](#): Code to identify patient (Cohort Patient ID)
- [DIS_ID](#): Code to identify event
- [DIS_D](#): Date of event
- [DIS_WD](#): Means of diagnosis
- [DIS_OTH](#)¹: Other location, only to be filled out if code alone is not sufficient

¹ DIS_OTH might be part of the record's unique identification

Additional fields

Please see [tblAE - Adverse Events](#) for specification on optional fields.
